Greenpower USA is a premier Science, Technology, Engineering, and Mathematics (STEM) program that provides students in grades 4 through 12 a hands-on, project-based learning experience that engages students academically and builds critical employability skills.

Greenpower USA provides a customizable, standards-aligned curriculum; car kits and parts; access to premiere race events; and training and technical support.

With a curriculum that builds each year's objectives upon accumulated skills and knowledge, **Greenpower USA** graduates high school seniors into post-secondary education, and the workforce with levels of advanced manufacturing and engineering project management experience rarely found in the K-12 educational landscape.
